

DistanceKernelDispersal
::adults_disperse

RadialDispersal::adults
_disperse

Dispersal::M_dispersing_out

```
graph LR; A[DistanceKernelDispersal::adults_disperse] --> C[Dispersal::M_dispersing_out]; B[RadialDispersal::adults_disperse] --> C;
```

The diagram illustrates a flow where two separate input processes, 'DistanceKernelDispersal::adults_disperse' and 'RadialDispersal::adults_disperse', both contribute to a single output process, 'Dispersal::M_dispersing_out'. The input boxes are white with black borders, while the output box is gray with a black border. Blue arrows indicate the direction of flow from the inputs to the output.
